## EDUCATION

---

Santa Clara University	MS in Computer Science and Engineering	Expected June 2023
University of Pune	Bachelors of Technology in Computer Engineering	Aug 2014 - June 2018

## EXPERIENCE

---

[Invasystems](#) - Senior Software Engineer - Mobien Digital, Pune, India June 2021 - August 2021  
I worked as an iOS Developer, my roles were mentoring juniors, providing bug fixes, implementing new features and deploying updates on Apple App Store to existing iOS apps.

[FlytBase](#) - iOS Developer, Pune, India Sept 2020 - June 2021  
FlytBase is a product based startup, located at Incubation Centre of College of Engineering Pune. I developed and acted as an architect for FlytNow iOS app, which is used to control DJI Drones Via FlytNow's Cloud Dashboard. At the moment this app is Live on Apple Appstore. My Roles :

- Implement a clean architecture for the iOS App
- Understand the requirements of drone users and implement those features in the iOS app
- Implement Service calls in the iOS App using ROS Bridge Protocol
- Test the App extensively for each DJI Drone available in the Market

[Persausive Technologies](#) - iOS Developer - Mobile Development Team, Pune, India Sept 2019 - Sept 2020  
Persausive Technologies is a small scale service based startup comprising of ten members. I was part of the mobile team and was the only iOS Developer in this organisation. I worked on modules like:

- BarCode/QRCode scanner
- Google Maps and direction API
- Payment Gateway Integrations
- One to One chat modules
- Rest API integration
- Multi Lingual Localisation.

[Appristine Technologies](#) - Trainee iOS Developer - Mobile Team, Pune, India Feb 2019 - Sept 2019  
Appristine Technologies is a service based startup, I was a part of four man iOS development team. I was mostly assigned with tasks :

- UI development
- Rest API integration

[TechniSure Solutions](#) - Jr iOS Developer - Pune, India August 2018 - Feb 2019  

- TechniSure Solutions is an organisation which provides software solutions to mechanical domain organisations. I was hired to port these solutions to iOS Apps.

[MSC Software](#) - Intern - BRE Team, Pune, India July 2017 - August 2017  

- I was assigned with the task of Automating White-listing Process using Perl Script for simulation softwares.
